- study flashcards - update flashcards, store, pretty clear. Anki. Combine game and study? subway surfers to the background. build in study features

- card collecting - pretty clear. pretty common idea

- website where you could write cards to ppl with different themes - could make a card and save it, have a database of made cards / in progress

- **business card app - virtual business card, build, edit, generate qr code for business card. networking event among researchers; can't ask for insta so exchange business card. Custom character also --**

- **club penguin card game -- which was shut down - you log in and it would keep track of your stats or smth. maybe make the game a little more complicated, CRUD component would be mainly for tracking stats. College system? Cards related to parts of the college (e.g Muir has a sun god card, warren beats muir, Revelle beats all =)) -- integrate into the card game card collecting. some kind of studying component? Strong cards --> answering question gets you cards, allows you to use cards, enhance power of cards**

- tarot card reader - keep track of readings, option to save, delete, regenerate

- connections but stuff related to ucsd - smaller cards combine into one big card -- save acct of stats?? daily streaks

- smth to do with the college system? compete against ppl from different colleges. CRUD the stats/leaderboard

Solutions

How do we intend to solve for this?

music - club penguin

Gacha functionality

customize character

sorting hat quiz

UCSD theme

MACRO TRANSACTIONS

Actually like club penguin

Trumpet SFX

customize racooon or different animal

Need to have a defined rules/guide set up

Cards each have attack points that affect HP

Types for cards. Certain types have advantage/dis advantages

Card Animation

Keep track of stats

Health Bar.

Clan of the 8 colleges. Can join one initally

card customization based on UCSD trivia ?

Brainstorm

Team 13 brainstorm
